I.2 FAR 52.204-1 APPROVAL OF CONTRACT (DEC 1989)

This contract is subject to the written approval of the Contracting Officer and shall not be binding until so approved.

I.3 FAR 52.215-19 NOTIFICATION OF OWNERSHIP CHANGES (OCT 1997)

(a) The Contractor shall make the following notifications in writing:

- (1) When the Contractor becomes aware that a change in its ownership has occurred, or is certain to occur, that could result in changes in the valuation of its capitalized assets in the accounting records, the Contractor shall notify the Administrative Contracting Officer (ACO) within 30 days.
- (2) The Contractor shall also notify the ACO within 30 days whenever changes to asset valuations or any other cost changes have occurred or are certain to occur as a result of a change in ownership.

(b) The Contractor shall -

- (1) Maintain current, accurate, and complete inventory records of assets and their costs;
- (2) Provide the ACO or designated representative ready access to the records upon request;
- (3) Ensure that all individual and grouped assets, their capitalized values, accumulated depreciation or amortization, and remaining useful lives are identified accurately before and after each of the Contractor's ownership changes; and
- (4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.

(c) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).

I.4 FAR 52.225-9 BUY AMERICAN ACT-CONSTRUCTION MATERIALS (JAN 2005)

(a) *Definitions.* As used in this clause-

"Component" means an article, material, or supply incorporated directly into a construction material.

"Construction material" means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

"Cost of components" means-

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

"Domestic construction material" means-

- (1) An unmanufactured construction material mined or produced in the United States; or
- (2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

"Foreign construction material" means a construction material other than a domestic construction material.

"United States" means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.*

- (1) This clause implements the Buy American Act (41 U.S.C. 10a - 10d) by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.
- (2) This requirement does not apply to the construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate "none"]

- (3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that-
 - (i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;
 - (ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or
 - (iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.
- (c) *Request for determination of inapplicability of the Buy American Act.*
 - (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including-
 - (A) A description of the foreign and domestic construction materials;
 - (B) Unit of measure;
 - (C) Quantity;
 - (D) Price;
 - (E) Time of delivery or availability;
 - (F) Location of the construction project;
 - (G) Name and address of the proposed supplier; and
 - (H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American Act applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American Act applies, use of foreign construction material is noncompliant with the Buy American Act.

(d) *Data*. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison				
<u>Construction Material Description</u>	<u>Unit of Measure</u>	<u>Quantity</u>	<u>Price (Dollars)*</u>	
<i>Item 1:</i>				
Foreign construction material	_____	_____	_____	
Domestic construction material	_____	_____	_____	
<i>Item 2:</i>				
Foreign construction material	_____	_____	_____	
Domestic construction material				
<p>[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]</p> <p>[Include other applicable supporting information.]</p> <p>[* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]</p>				

I.5 FAR 52.225-10 NOTICE OF BUY AMERICAN ACT REQUIREMENT-CONSTRUCTION MATERIALS (MAY 2002)

(a) *Definitions.* "Construction material," "domestic construction material," and "foreign construction material," as used in this provision, are defined in the clause of this solicitation entitled "Buy American Act-Construction Materials" (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American Act should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American Act before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) *Evaluation of offers.*

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American Act, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) *Alternate offers.*

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested-

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

I.6 FAR 52.244-6 SUBCONTRACTS FOR COMMERCIAL ITEMS (DEC 2004)

(a) *Definitions.* As used in this clause-

"Commercial item" has the meaning contained in Federal Acquisition Regulation 2.101, Definitions.

"Subcontract" includes a transfer of commercial items between divisions, subsidiaries, or affiliates of the Contractor or subcontractor at any tier.

(b) To the maximum extent practicable, the Contractor shall incorporate, and require its subcontractors at all tiers to incorporate, commercial items or nondevelopmental items as components of items to be supplied under this contract.

(c)(1) The Contractor shall insert the following clauses in subcontracts for commercial items:

(i) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds \$500,000 (\$1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212(a));

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (Dec 2004) (E.O. 13201). Flow down as required in accordance with paragraph (g) of FAR clause 52.222-39).

(vi) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631) (flow down required in accordance with paragraph (d) of FAR clause 52.247-64).

(2) While not required, the Contractor may flow down to subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(d) The Contractor shall include the terms of this clause, including this paragraph (d), in subcontracts awarded under this contract.

The Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. If a proposal on all items is not required, offerors should insert the words "no proposal" in the space provided for any item on which no price is submitted.

(d) Alternate proposals will not be considered unless this solicitation authorizes their submission.

L.7 GENERAL INFORMATION

A. PROPOSAL IDENTIFICATION

For ease of reference, that part of an Offeror's submission covering factors other than price; i.e., Past Performance, will be referred to in this RFP as "Past Performance."

B. AWARD WITHOUT DISCUSSIONS

The Government intends to evaluate proposals and award the contract based on the initial offer, in accordance with FAR 52.215-1(f)(4). It is particularly important that each Offeror be fully responsive in providing its best offer initially, since there may be no opportunity to revise proposals at a later date.

Offerors' initial proposals shall be reviewed to determine whether they satisfy the formal requirements of the solicitation. Those proposals determined by the Government to be so grossly and obviously deficient as to be totally unacceptable on their face may be eliminated from further consideration before the initial evaluation.

Failure of Offerors to respond to or follow the instructions regarding the organization and content of the proposal volumes may result in the entire offer being eliminated before initial evaluation.

An incomplete or deficient price proposal will impede the CO from performing a price analysis to determine probable cost to the Government and reasonableness of proposed price.

C. INQUIRIES

Any inquiries or correspondence pertaining to the Request for Proposal (RFP) must be received not later than fourteen (14) calendar days after issuance of this RFP. Address all written inquiries to:

U.S. Department of Transportation
RSPA/Volpe National Transportation Systems Center
Attn: Elizabeth A. Segal, DTS-852
55 Broadway, Kendall Square
Cambridge, MA 02142-1093

The envelope must reference the solicitation number and the mail code. Questions may also be submitted by e-mail to segal@volpe.dot.gov or by fax at (617) 494-3024. Any questions received after this date will be answered only if determined by the CO to be in the best interest of the Government. **NO ORAL INQUIRIES WILL BE ANSWERED.** No question of any nature or form is to be directed to technical personnel. Any additions, deletions, or changes to this procurement will be made by amendment to the RFP.

Each amendment will be identified by number and receipt thereof will be acknowledged by each Offeror. Consistent with the dissemination of the RFP, **any amendment will be posted on the Volpe Center Acquisition Division Internet Home Page** (<http://www.volpe.dot.gov/procure/index.html>) and no paper copies will be mailed to prospective Offerors.

L.8 GENERAL INSTRUCTIONS FOR PAST PERFORMANCE PREPARATION

A. SOLICITATION MAILING INSTRUCTIONS

To facilitate proper handling of the offer or amendment thereof, it is imperative that the outermost envelope/package that contains the offer/amendment be addressed in the format presented in the "Issued by" Block on page 1 of this solicitation. Packages must be clearly labeled with the solicitation number and with a statement that the contents are "Proposal Data - To Be Opened By Addressee Only."

B. PROPOSAL PRESENTATION

Offerors are required to submit their proposals in a separate section as follows:

Past Performance

This section must include the required list of the Offeror's current contracts, copies of past performance reports or explanations of efforts to obtain them, and summary descriptions of the three most relevant contracts.

This section should be complete in itself so that evaluation of this part may be accomplished concurrently and evaluation of the non-price factors may be made strictly on the basis of technical merit.

C. COPIES

You must submit three (3) copies of the Past Performance.

L.9 INSTRUCTIONS FOR PAST PERFORMANCE

A. Page Limits

The maximum number of pages that may be submitted is as follows:

Past Performance: The total overall page limit for the summaries of the Offeror's three (3) most relevant contracts is nine (9). There is no limit for the required list of other current contracts, for past performance reports, or for any information submitted by the Offeror to demonstrate that it has made its best efforts to ensure that customers provide past performance reports to the Volpe Center.

Offerors shall submit their past performance information as a separate part of the price proposal for the Offeror. Offerors shall submit the past performance information as a separate section of their proposal that is clearly marked and identifiable.

- a. Each Offeror will be evaluated on its performance under existing and prior contracts for similar construction projects. Performance information will be used both for responsibility determinations and as an evaluation factor. References other than those provided by the contractor may be contacted by the Government and the information received may be used in the evaluation of the Offeror's past performance.
- b. The Offeror must provide a list of contracts that it is currently performing or has completed within the past three years. The Offeror must make a good faith effort to ensure that the list includes all prime contracts with the Federal Government. If the Offeror can demonstrate that including information on all prime contracts with the Federal Government would create an undue burden on the Offeror because of the large number of applicable contracts, then the list may be reduced to reflect contracts that are most relevant and for which data is readily available. The Offeror must describe in its proposal what types of contracts were excluded and what process was utilized to ensure that all prime contracts with the Federal Government over \$500,000 relevant to the Statement of Work were included. However, the list must include all contracts that are clearly relevant. The list may also include other contracts considered relevant by the Offeror, including those with customers other than the Federal Government. Information regarding the Offeror's performance as a subcontractor with the Federal Government will be obtained from the prime contractor. Include the following information for each contract:
 - 1) Name and address of customer
 - 2) Contract number
 - 3) Contract type
 - 4) Total contract value
 - 5) Description of contract work
 - 6) Contracting Officer's address, telephone number and e-mail address
 - 7) Contracting Officer's Technical Representative's address, telephone number and e-mail address
 - 8) Administrative Contracting Officer's address, telephone number and e-mail address (if different from item 6)
 - 9) List of major subcontractors
 - 10) Assessment of relevance to requirements identified in this solicitation
 - 11) Whether any final or interim contract past performance report was or has been issued by the contracting agency. Copies of the final or most current past performance report must be submitted for the three most relevant contracts. Copies of reports on other than the three contracts considered most relevant by the Offeror should not be submitted as part of the proposal but may be obtained by the Government if the Government considers the contracts relevant.
- c. From the above list, the Offeror must select no more than three (3) contracts that it considers the most relevant in demonstrating its ability to perform the proposed effort. This list of most relevant contracts must be separated from the above list. Offerors may also include information on problems encountered on the three (3) identified contracts and the Offeror's corrective actions.

- d. The Offeror is responsible for making all reasonable efforts to ensure that a completed evaluation report is provided for each of the three (3) cited contracts no later than the due date for receipt of proposals. If the contracting activity has completed a contractor evaluation report and provided a copy to the Offeror, particularly those completed in accordance with Subpart 42.15 of the FAR, a copy of this report is sufficient. If not, the Offeror is responsible for ensuring that a copy of the performance evaluation report is provided directly to the Volpe Center Contracting Officer by the appropriate customer responding official no later than the proposal submission date. Information contained in the evaluation reports shall be considered sensitive and shall not be released to other Offerors. Failure of the Offeror to demonstrate that it has made all reasonable efforts to provide the required past performance reports will result in an unacceptable rating for this criterion. The Government reserves the right to obtain additional information from any of the referenced contract contacts and from other Government sources. If the Government receives negative past performance information (indicating that performance was less than satisfactory) which is not accompanied by a response from the Offeror, a copy of the adverse information will be provided to the Offeror, which will be given a limited period in which to provide a response. If no response is received within the specified timeframe, the negative past performance information will be evaluated as submitted
- e. If the Offeror has no relevant past performance history, it must affirmatively so state. Offerors that state they have no relevant past performance history and Offerors that are unable to provide past performance reports after making all reasonable efforts will not be evaluated favorably or unfavorably under this criteria, in accordance with FAR 15.305.
- f. In the case of a relatively new firm (i.e., established within the last 18 months), the Offeror may submit past performance information for contracts on which its corporate management has performed to supplement any past performance information for the firm itself; this shall be specifically noted in the proposal submission.
- g. If the Offeror does not include past performance history or does not affirmatively state that no past performance history exists or can be obtained, the Offeror's proposal will be ineligible for award.

SECTION M - EVALUATION FACTORS FOR AWARD

M.1 GENERAL

- A. Basis for Award. It is the Government's intent to make award based upon initial offers without entering into discussion or negotiations. Award will be made to one responsible and responsive Offeror offering the "best value" considering price and past performance.
- B. Order of Importance. The price is the most important factor for award. The Offeror's price is significantly more important than past performance on similar type work.

M.2 PROPOSAL EVALUATION

- A. Cost. The Offeror's price will be evaluated for compliance with the RFP.
- B. Past Performance. The purpose of this criterion is to assess the ability of the Offeror to perform successfully based upon an evaluation of its relevant past performance history on projects of the type and complexity described in the SOW. The Offeror's relevant past performance history will be evaluated for the following subcriteria, which are of equal importance: (1) Quality of work; (2) Timely performance; (3) Effectiveness of management; (4) Compliance with labor standards; and (5) Compliance with safety standards. Only relevant past performance history will be considered.

If an Offeror has affirmatively stated that it has no relevant past performance history, and there is no evidence to the contrary, the Offeror will not be rated favorably or unfavorably on past performance.

RIGGERS; WELDERS - Receive rate prescribed for craft performing operation to which rigging or welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after

award only as provided in the labor standards contract clauses (29 CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

1. Individual sureties on bonds executed in connection with Government contracts must complete and submit this form with the bond. (See 48 CFR 28.203, 53.228(e).) The surety must have the completed form notarized.
2. No corporation, partnership, or other unincorporated association or firm, as such, is acceptable as an individual surety. Likewise, members of a partnership are not acceptable as sureties on bonds that a partnership or an association, or any co-partner or member thereof, is the principal obligor. However, stockholders of corporate principals are acceptable provided (a) their qualifications are independent of their stockholdings or financial interest therein, and (b) that the fact is expressed in the affidavit of justification. An individual surety will not include any financial interest in assets connected with the principal on the bond that this affidavit supports.
3. United States citizenship is a requirement for individual sureties for contracts and bonds when the contract is awarded in the United States. However, when the Contracting Officer is located in an outlying area or a foreign country, the individual surety is only required to be a permanent resident of the area or country in which the contracting officer is located.
4. All signatures of the affidavit submitted must be originals. Affidavits bearing reproduced signatures are not acceptable. An authorized person must sign the bond. Any person signing in a representative capacity (e.g., an attorney-in-fact) must furnish evidence of authority if that representative is not a member of a firm, partnership, or joint venture, or an officer of the corporation involved.
